RUSSIA FACING A SERIOUS SITUATION

Insurrection Worst Than Has
Occurred Since 1821.

Revolution Expected in Few Days

How Will Be Able to Stamp Out
Rebellion—On the Other Hand the
Rebellion May Spread Beyond Con-
trol—Troops Arrive at Odessa.

St. Petersburg, July 1.—Not since
the unsuccessful insurrection in De-
cember, 1821, when a portion of the
Cossack regiments joined in an attempt
to overthrow the autocracy and the
Romanov dynasty been so serious.

Nevertheless, the crisis may be
ended in a few days. Either the open
rebellion will by that time be stamped
out or the flames will have spread
beyond the hope of control.

At the admiralty it is said that Rear
Admiral Kruger's squadron is expect-
ed to arrive at Odessa during the day.
An explanation is offered for the de-
lay of the squadron's sailing from Se-
bastopol on the nature of Kruger's
orders. It is admitted, although, a
certain reticence is manifested, that at
last night Kniaz Potemkin was
firing on the city.

The admiralty thinks the mutinous
sailors were probably drunk. The offi-
cers consider it possible that the crew
was supporting the strikers and revo-
lutionists ashore against the troops.
Throughout the day the soldiers and
officers had evidently refrained from
attempting to interfere with the strike-
ers under the threat of the mutineers
of the warship to use her guns against
them. Although it is possible the ac-
quiescence of the soldiers was due
to the authorities think they are
in a position and a regiment of dragoons
and a brigade of artillery have been
sent to Odessa from Kherson.

The troops arrived at Odessa this
morning.

Mutineers Surrounded by Soldiers.

St. Petersburg, July 1.—About 4,000 mu-
tineers (sailors) are surrounded in a
small wood near the port by the in-
fantry reinforced by machine guns.
One thousand of the mutineers already
have surrendered and given up their
arms.

The mutiny started Wednesday night
when the sailors of the first equipage,
as the naval units are known in Rus-
sia, revolted because the food was bad.
They were joined immediately by the
fifth, sixth, thirteenth and fifteenth
equipages—3,000 blue jackets in all.

The guard at first tried to oppose
them, killing one and wounding seven.
Then the sailors got the upper hand.
They seized the guard house, broke
open stores, securing arms and am-
munition. Pandemonium followed
throughout the night. Mutineers
struck the barracks, and fired vol-
leys at random until morning. The
city was terrorized, when troops and
artillery arrived Wednesday morning.

All entrances to the city were closed
and gradually the sailors were driven
to the wood which they since hold.

Much of the firing, mingled with
the humming of machine guns, has been
heard, but as every one is forced by
the police to keep off the streets and
away from the port some distance be-
low town, nothing is definitely known
except that 1,000 mutineers have sur-
rendered.

The revolutionary agents have
seized the opportunity to distribute
propaganda from house to house.

Five Hundred Rioters Killed.

Washington, July 1.—A dispatch re-
ceived at the state department over-
night from Consul Henan at Odessa
says officers of the Potemkin killed
eight liberated, remainder prisoners.
The fleet has not arrived at Odessa.
Harbor largely destroyed by fire. Fifty
cruisers killed and many Russian
prisoners killed.

Another dispatch from the same
source, dated Odessa, 5:11 p. m., says
the fleet has not arrived at Odessa.
Harbor largely destroyed by fire. Fifty
cruisers killed and many Russian
prisoners killed.

from Ambassador Meyer at St. Peters-
burg, which says:

Information from Odessa that 500
rioters have been killed. The harbor
largely destroyed by fire and a battle-
ship firing on the town. Fleet not ar-
rived.

3,000 Sailors Strike.

St. Petersburg, June 30.—3:25 p. m.
—A sensational report in current that
eight thousand imperial sailors togeth-
er with the workmen at the yards and
docks of the naval port of Cronstadt
have suddenly refused to work and
that practically a state of mutiny ex-
ists there.

12,000 People Attack Patrols.

Berlin, July 1.—A dispatch to the
Tageblatt from Odessa, timed 3:52 p.
m. today, says:

"Mobs estimated to number 12,000
persons, attacked the patrols of troops
in the streets yesterday and the fight-
ing continued into the night. Several
hundred persons were killed or wound-
ed. The hospitals are crowded with
wounded.

The petroleum reservoirs were set
on fire and exploded. All traffic in
the streets is stopped.

LEGISLATURE AT WORK.

Many New Bills Introduced in House.
Governor's Message.

Atlanta, July 1.—The 1905 session
of the Georgia legislature swung into
a big stride in the house. Important
bills came tumbling over each other
onto the clerk's desk and all signs
point to one of the liveliest sessions
in years.

Hon. Joe Hill Hall, of Bibb, came
forward with his anti-free pass bill.
Dr. T. J. M. Kelly, of Glascock, had
his Australian ballot bill in his pocket
and sent it briskly up to the
clerk's desk. Captain Conner, of Bar-
tow, who thinks the Western and At-
lantic railroad should be sold and the
proceeds devoted to pay debts and
found a system of state high schools,
introduced a bill to that effect.

Hon. Madison Bell, of Fulton, intro-
duced his child labor bill, and Hon.
B. R. Blackburn introduced his mil-
itia district patrol bill, which went
down in defeat at the hands of the
last house.

The new county campaign was given
a brisk start by the introduction of
three new county bills: The Tift
county bill, by Mr. Knight, of Berleas;
the Crisp county bill, by Mr. Hill, of
Dooley, and the Brantley county bill,
by Mr. Dougherty, of Clinch.

Governor Terrell's Message.

Able, direct, forceful and thoughtful
was the message of Governor Terrell
which was submitted to the senate of
Georgia. It was heard with interest
by the members and it was evident
that it contained some surprises for
them.

A plea for the equalization of the
taxes of the state was made by Gov-
ernor Terrell. He opened his message
with this subject and exhausted the
topic before he finished writing of it.
Governor Terrell recommends that
there be created county boards of tax
assessors and a state board of control
for corporation taxes.

The governor deals at length with
the subject of education. He recom-
mends that there be established at
least one agricultural school in each
congressional district to be maintained
by the net fees arising from the inspec-
tion of commercial fertilizers.

The election laws of Georgia are giv-
ing attention in the message. The
governor recommends that the Aus-
tralian ballot system be inaugurated,
as was demanded by the last state
convention.

Governor Terrell recommends that
immigration to Georgia be encouraged,
that all state confederate flags be sent
to the capital for preservation, and
concludes his message with a review
of the conditions that exist in the in-
stitutions maintained by the state.

John D. Gives \$10,000,000.

New York, July 1.—At a meeting
of the general education board held
today in this city a gift of \$10,000,000
was announced from John D. Rockefeller.
The fund is to be an endow-
ment for higher education in the Uni-

AMERICAN VESSELS IN FRENCH HARBOR

Squadron Ready to Receive
Body of Paul Jones

IS GIVEN A ROYAL RECEPTION

Rear Admiral Sigsbee, with His Fleet,
Arrives at Cherbourg—Town and
Harbor Gaily Decorated in Honor of
Occasion—Loubet to Entertain.

Cherbourg, July 1.—The American
squadron commanded by Rear Admi-
ral Sigsbee, consisting of the armored
cruiser Brooklyn (flagship) and the
protected cruisers Chattanooga, Taco-
ma and Galveston, which is to convey
the body of John Paul Jones to the
United States, arrived here at 9 this
morning and was greeted with the roar
of guns from the land forts and the
warships and the dipping of the flags
on board all the vessels in the harbor.

A thick mist hung over the sea and
prevented the semaphores from regis-
tering the approach of the American
ships until they were near the outer
harbor. The squadron presented a
handsome appearance as it approach-
ed, with the Brooklyn leading the line.
The batteries at the arsenal fired a
welcoming salute of 21 guns to
which the four American vessels an-
swered gun for gun.

The squadron anchored in the inner
harbor at a point designated by Ad-
miral Besson, commander of the port.
The aspect of the harbor was strik-
ingly beautiful as the sun came out
and the many merchantmen, steam
yachts and other pleasure craft in
these waters strung out their full
complement of colors in which the
American flag predominated.

The Brooklyn was soon the center
of a flotilla of small craft, while the
quays were quickly lined with people
and the houses fronting the harbor
were made bright with bunting, in-
cluding many American flags.

Much regret was felt at the fact
that the division of the French north-
ern squadron assigned to participate
in the ceremonies for the transfer of
the American admiral's body to the
Brooklyn next week did not arrive
here in time to participate in the wel-
come to the American ships.

Admiral Sigsbee, accompanied by
the commanders of the four American
ships landed and proceeded to the
maritime prefecture where he called
on Admiral Besson and the latter ac-
companied by his staff, returned the
visit on board the Brooklyn, the ships
firing an admiral's salute.

The French division, including the
battleships Bourville, Henri IV and the
Trehouart is expected here hourly.

Will Entertain Americans.

Paris, July 1.—The council of min-
isters went over the Franco-German
negotiations today and a communica-
tion was issued saying that they are
satisfactorily progressing toward an
agreement.

The council also arranged plans for
participation in ceremonies attending
the removal of the body of Admiral
John Paul Jones, from Paris to Cher-
bourg. President Loubet will receive
Assistant Secretary of State Loomis
and Rear Admiral Sigsbee, the evening
of July 5, and M. Loubet, Premier
Rouvier will also give a luncheon dur-
ing the visit of the Americans to the
city of Paris.

Captain Hank Haff Seriously Ill.

New York, July 1.—Captain Hank
Haff, the famous yachting skipper and
his wife, are seriously ill at their
home in Islip, L. I. Captain Haff be-
gan his yachting career in 1867 and
commanded the victorious American
yacht during three attempts by the
English to lift the American cup.

Collision on Santa Fe.

Kansas City, July 1.—An Atchison,
Topeka and Santa Fe Limited passen-
ger train, bound for Chicago, colli-
ded with a train on the belt line railway at
Trenton avenue, 2 miles from the cen-
ter of the city today. Three persons
were killed and three injured.

CHINA BOYCOTT NOT SERIOUS.

So Declares the Diplomatic Advisor to
the Viceroy of North China.

Detroit, Mich., July 1.—Charles
Denby, diplomatic advisor to the vice-
roy of North Carolina who was visit-
ing relatives here, does not take a
serious view of Chinese threats to boy-
cott American goods owing to the Chi-
nese exclusion act. Mr. Denby, who
has for 20 years been in close touch
with political and commercial affairs
in China said:

The Chinese government is not back
of this agitation, and it is not sup-
ported by the merchants. It is prob-
ably that Chinese students are mak-
ing the trouble. The students of
China, like those of Russia, are a fac-
tor in politics, young hot-headed fel-
lows, educated abroad, and with re-
form ideas.

China is satisfied with the present
exclusion laws. I believe that if we
repealed those laws China would pass
an act forbidding the coolies to come
to this country. The government has
a contract with the big mine owners
in South Africa to supply them with
the labor. The government gets the
royalty on all labor furnished, and
cannot get men enough. It has re-
cruiting agents all over China now.
The Chinese do not want their labor-
ers to come to America. All China
wants is a fair, just administration
of the laws that students and merchants
be allowed to come in undisturbed and
no discriminations.

MAIL WAGON DRIVERS TO STRIKE

New York Likely to See Trouble Along
This Line.

New York, July 1.—A strike of
mail wagon drivers, which has been
hanging fire here for some days, now
appears likely to occur at midnight to-
night. More pay and shorter hours
are demanded by the drivers, but the
new contractor who has just secured
the job, declares he cannot meet the
men's threat.

For the last ten years the mails
have been transported from the post-
office and the sub-stations to the fer-
ries and depots by the New York Mail
company. Now the contract has been
awarded to C. H. Wolcott, who takes
charge of the business at 12 o'clock
tonight.

Postmaster Wilcox declares that
should the drivers quit they will not
be permitted to interfere with the
service and arrangements already have
been made by the United States mar-
shal to protect the mails.

Co-operation by the police of Man-
hattan, Brooklyn and Jersey City has
been obtained by the marshal.

Object to Advance in Rates.

New York, July 1.—Fifty-two of
the Pioneer Royal Arcanum councils
in Manhattan and the Bronx have been
represented at a meeting to protest
against the recent advance in rates.
Resolutions were adopted looking to a
reconsideration by the supreme coun-
cil of the recent changes in assessment
rates and declaring confidence in the
stability of the order. It was unani-
mously decided to request that an im-
mediate session of the grand lodge of
the state be held to take up the mat-
ter.

New Engineer Appointed.

Washington, July 1.—It is under-
stood that John E. Stevens, of Chic-
ago, formerly fourth vice president of
the Chicago, Rock Island and Pacific
railway has been selected as chief en-
gineer of the Panama canal commis-
sion to succeed John F. Wallace. Mr.
Stevens' salary will be \$30,000 per year
and he is to be a member of the
Isthmian canal commission. His pro-
posed trip to the Philippines with Sec-
retary Taft as a government railway
expert has been abandoned.

Temporary Receiver Appointed.

New York, July 1.—A temporary
receiver has been appointed for the
Castle Braid company, with a large
factory in Brooklyn and doing business
in this city. This action followed
application by some of the directors
for the voluntary liquidation of the
corporation. It is stated that the li-
abilities are \$400,000 and assets, \$300,000.

DEATH METED OUT BY UNKNOWN HANDS

In Verdict of Coroner's Jury
Investigating Lynching.

ONE NEGRO ESCAPED WITH LIFE

There Seems To Be No Clue to Men
Who Composed the Mob Who Broke
Into Oconee County Jail and Se-
cured and Killed Prisoners.

Watkinsville, Ga., July 1.—The cor-
oner's jury which investigated the
lynching of eight prisoners here yes-
terday found that they met death at
the hands of parties unknown.

It developed that the mob which
shot to death seven negroes and one
white man consisted of about 40 or 50
persons. They came into town very
quietly and orderly and few of the
citizens knew of their presence until
after they had fired the first volley.

After the mob finished its work they
went away as quietly as they had
come. No stray shots were fired and
there was no loud talking and no dis-
order of any kind.

After the mob finished its work they
went away as quietly as they had
come. No stray shots were fired and
there was no loud talking and no dis-
order of any kind.

Thursday people came from different
directions during the whole day to
view the bodies, and after a few min-
utes' stay passed on.

Today the village is as quiet as
usual. Everybody is going about his
business as if nothing had happened.
There is no feeling of uneasiness on
the part of anyone.

There seems to be no feeling of re-
sentment on the part of the negroes
on account of the killing of seven of
their number. They seem to realize
that the prisoners who confessed to
the brutal murder of F. M. Holbrook
and his wife, the aged couple, who
were beaten to death May 9th, and
others suspected of an attempted as-
sault on Mrs. Wesley Dooley, met a
deserved fate. The negroes buried the
bodies of the victims.

The negro, Joe Patterson, who es-
caped death at the hands of the mob
by feigning death when he was shot
will recover. He will be given an
immediate hearing.

Attempt To Lynch Negroes.

Nashville, Tenn., July 1.—A de-
perate attempt was made at Scotts-
ville, Ky., last night to lynch seven
young negroes in jail there charged
with arson and several other crimes.
Cool-headed citizens persuaded the
mob to wait, that there were others
guilty who had not been apprehended.
Other negroes charged with being ac-
cessories were arrested this morning
and placed in jail. The feeling there
against the negroes is very bitter and
a wholesale lynching may result.

PUBLISH FORMULAE OF DIET.

By Certain Methods Diseases Can Be
Cured Without Medicines.

Chicago, July 1.—A public dietetic
bureau, which shall publish in the
daily papers wise formulae of diet
and physical management of the hu-
man body, has been suggested at the
American Institute of Homoeopathy by
Dr. M. C. Terry, former surgeon gen-
eral of New York. He held that such
an educative measure would result in
the palliation or permanent eradica-
tion of appendicitis and other diseases
that afflict the public.

He proposes that physicians shall
unite in a magnanimous enterprise to
donate to the general welfare the lat-
est information on the subject of diet-
etics and preventive treatment while
it might lessen the necessity for the
prostitution of medicine, would rid the
world of much pain and suffering.

Dr. Terry also paid some attention
to the appendicitis crisis, declaring
that in many cases where operations
were performed a vacation or a series
of morning walks would have pre-
vented the serious attack taken by the
disease. He said that appendicitis
was usually induced by a meal of

ROCHELLE HAS A DISASTROUS FIRE

Store and Contents of W. E. Veal and Postoffice Burned.

LOSS WAS ABOUT \$6,000

Fire Was Discovered About 1:30 in the Morning, Too Late to Extinguish Flames—Serious Loss to Man Who Worked Faithfully.

Information reached this city Saturday morning of a disastrous fire which occurred early Saturday morning at Rochelle, involving the loss of the store and stock of goods of W. E. Veal, who purchased the interests of James Holder a few months ago. The postoffice which was also in the store, and all the postoffice property, together with the mail, was destroyed by the flames.

The fire was discovered about 1:30 Saturday morning, but too late to save the property, as the fire protection at that point is very inadequate. It is understood that the loss was about \$6,000, with small insurance.

Mr. Veal, the proprietor, came to Rochelle from Dunnellon, when he purchased this general mercantile business. He is an energetic, hard-working man, and by strict attention to business has worked up a fine trade. This misfortune was a severe blow to him, just at a time when he was beginning to reap a harvest from his efforts.

GONE TO HER FATHER'S HOUSE.

In Memory of Mrs. Margaret Elizabeth Marshall.

"Oh! what do you think the angels say?"

Said the children up in heaven; "There's a dear old lady coming home today."

Who's eighty-five years and blind, they say.

She's almost ready to fly away From the earth we used to live in; Let's go and open the gates of pearl,

Open them wide for this grand-mother old."

Said the children up in heaven.

"God wanted her here, where all his children meet."

Said the children up in heaven; "She will be with us in the golden street!"

She has grown too fair, she has grown too sweet For the earth we used to live in.

She needs the sunshine, this dear, dear one,

Her sight is restored, she's blind no more.

She will meet with us on the golden shore."

Said the angels up in heaven.

"So the King called down from the angel's dome,

On June twenty-fourth, just before noon."

Said the children up in heaven, "We are waiting for you, arise and come

To the place prepared in thy Father's home,

To the home my children live in. Let's go and watch at the gates of pearl,

Ready to welcome her from the world."

Said the children up in heaven.

"Far down on the earth do you hear them weep?"

Said the angels up in heaven; "For the dear old lady has gone to sleep;

The shadows fall and the night clouds weep O'er the earth we used to live in.

But we will go and open the gates of pearl.

O! why do they weep for this dear soul

Who was ready to go at the Master's call?"

Said the children up in heaven.

"Fly with her quick, O angel dear."

Said the children up in heaven; "See—she is coming! Look there! Look there!"

At the Jasper light on her silvery hair,

Where the veiling clouds are riven! Ah! hush, hush, all the swift wings fur!

For the King Himself is at the gates of pearl,

Is taking her hand; she left the world, And He is leading her into heaven.

BOARD OF CONTROL MADE EXAMINATION

Were Entertained Royally by
People of Gainesville.

RECEPTION AT DORMITORY

The Affair Was Informal, but Was a Most Enjoyable Function, During Which Everyone Felt Easy and at Home—Board Leaves Today.

The members of the State Board of Education and the Board of Control have visited Gainesville in accordance with the program, have inspected the grounds proposed for the new State University, and the people shall wait with a great deal of anxiety their decision in the matter of making a selection for that institution.

The combined board comprises His Excellency Governor N. B. Broward, W. M. Holloway, State Superintendent; W. V. Knott, State Treasurer; W. H. Ellis, Attorney-General; H. Clay Crawford, Secretary of State; N. P. Bryan, P. K. Yonge, N. Adams, T. B. King and A. L. Brown.

The board was escorted about the city by the citizens' committee, during which time the East Florida Seminary barracks and other buildings, and the sites for the proposed new buildings, were visited and inspected. The board expressed themselves as being well pleased with what they saw, but naturally would not commit themselves.

While the distinguished visitors were being driven about the city they were intercepted and followed by about two hundred children, some in carriages, some on bicycles and others walking; each wearing the college colors—orange and black. One lad carried a banner at the head of the procession which contained the following:

"We are going to be University boys. We want to wear the orange and black. Can't we?"

This demonstration seemed to impress the board, who seemed to thoroughly enjoy and appreciate the enthusiasm of the young Americans.

The Reception.

In the evening an informal reception was tendered the board at the girl's dormitory, East Main street N., which was largely attended, a great many having taken advantage of the opportunity to meet the distinguished guests. The building was appropriately decorated in the colors of the Seminary and in floral designs, which made the same quite attractive. A committee of ladies and gentlemen received the callers and introduced the guests, and the evening was passed in a most enjoyable manner. There were several musical numbers, and during the evening delicious punch and wafers were served.

The members of the board expect to make their departure today for Lake City, where they will make inspection tomorrow.

Will Remove to Gainesville.

Having been attracted to Gainesville by its excellent school and religious facilities, Mrs. W. J. Carter of Tampa has removed to this city with her family, and will make her future home here.

Mrs. Carter has rented the Flewellen home, East Church street, from J. B. McDonald, and if she likes Gainesville as well as she believes she will, she will purchase the property outright.

This estimable lady and her family will be welcomed as residents of the city, and it is to be hoped they will continue to be pleased.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W. McCollum & Co.

To the Public.

The series of meetings that have been held with the Friendship Baptist Church will close tonight. Sunday morning Sunday school at the usual hour—9:30. After which covenant meeting will be held. Sunday afternoon a special sermon will be delivered by the pastor. Subject: "The Vanguard and the Reformation of the Church." Text—Isaiah 52:1. All are invited to attend. These services. Excellent music will be furnished by the choir. Sunday night there will be several to put on a program, so we cordially invite

MASONIC PICNIC.

Fine Time for All Who Attended and a Big Feast.

Bell, June 24.—The Masonic picnic which had been previously advertised in mystic tie to do honor to and to perpetuate the sacred memory of our long-departed friend and brother, John the Baptist.

After the exercises at the Hall the Brotherhood marched to the old Gassett homestead, where the lovely umbrella china and other shade trees meted out their palms of coolness. There, anxiously waiting, rested a collection of 700 people to witness the grand occasion.

Rev. Lewis Thomas, who was speaker of the day, in substance said:

"The ceaseless wheels of time have reeled off more than 1,500 years since John the Baptist's consecrated head fell beneath the ruthless axe of the tyrant, Herod, as a ghastly trophy to the diabolic revenge of the adulteress, Herodias, and yet the world honors and reverences him still and will continue to honor him.

"Till heaven's last thunder Shall boom the dirge of time."

"Who was this John the Baptist? Son of Zacharia and Elizabeth. It was he of whom the Prophets had written: 'Behold, I send my messenger before thy face, which shall prepare the way before thee.'"

"Thus hundreds of years before his birth proclaiming him as the foreordained forerunner and herald of Christ.

"The man whom Christ himself declared: 'Verily, I say unto you: Among them born of woman, there is not risen a greater than John the Baptist.'"

"Some Masonic historians claim that John the Baptist was a member of our mystic order; but however this may be, 'tis certain that he was a forerunner and herald of Christ, delegated by God to prepare the hearts and minds of benighted man to receive the true Word to be spoken from the lips of His Son, the true Christ. And so was Masonry of divine origin as a medium by which the hearts of men could be softened to fit a reception of the true Word, and it too, was a forerunner of the coming Christ. When Hiram, king of Tyra, was ordained to build the house for the Lord, and in this respect Masonry and the memory of John the Baptist are inseparably connected, both having the same mission on earth—to prepare men's minds for the reception of the true Messiah—back in the benighted ages, anterior to the coming of the Saviour, men's minds were filled with mystery and superstition, and were prone to follow after false gods, and the whole of mankind went mystery-mad, and could do nothing except through secret societies, that were wrapped in mysterious rites and ceremonies. Hence the world was flooded with secret societies. 'The Allwise God saw that the easiest and most acceptable avenue of approach to the hearts and minds of His few followers and believers was to organize lodges to teach morality and brotherly love under the name of Masonry.

"But," says the carping critic, "I do not understand that Masonry is a religion. How, then, can it be said that it is of divine origin?" Yes, 'tis true Masonry is not a religion, but its teaching is a twin sister of religion. It inculcates and urges upon the hearts and

consciences of man a code of morals so truly divine as to make of Him Who observes and keeps them more than half of a Christian.

"To whom does Masonry promise its benefits and blessings? To those only who humble themselves to a proper condition to receive—to those who come forward as dependent creatures.

"To whom does God promise the benefits and blessings of Christianity? To those who humble themselves as suppliants at the footstool of His sovereign mercy."

At twelve o'clock the committee announced that the refreshments were ready. The delicacies the good ladies had prepared were numerous and inviting, besides the nice barbecued meats that had been donated for the occasion by the Brotherhood.

It was unanimously agreed that it was the largest collection of people, the most orderly and enjoyable occasion ever witnessed in these parts.

Canal Employees Return Home.

New York, July 1.—Fifteen employees from the Isthmian canal returned on the Panama Railroad company's steamer Segurana today from Colon. The steamer carried 148 passengers. At quarantine the ship was held several hours while the passengers were examined. Three passengers were sent to Hoffman island for observation. They were John A. Warren, a miner 31 years old and Lamont Northern four years old. Both had suspiciously high temperatures. The mother of the child was sent with it. Mrs. Northrup said she lived on the Isthmus eleven months where her husband was employed as station agent on the Panama railroad. The Segurana after being fumigated was released by the health officers.

Wallace's Resignation Accepted.

New York, July 1.—A statement published today by the Times credits to a confidential representative of Jno. F. Wallace, whose resignation as chief engineer of the Panama canal has just been accepted by the government declares that when Mr. Wallace accepted the place it was his purpose to remain in charge of the construction of the Panama canal until its completion. The confidential representative declares that Engineer Wallace will soon present his side of the case to the public in a statement which will conclusively show that he was justified in tendering his resignation, and will cause an investigation to be made.

Company Answers Complaint.

New York, July 1.—The Boston and Montana Copper company as interposed an answer in the United States circuit court here to the amended complaint recently filed against it by the Johnstown Mining company, controlled by the Helzke interests. The latter corporation charged the defendant with removing loose ore in silver Bow county, Montana, belonging to it and the Montana Ore Purchasing company valued at \$37,000,000. The answer declares that the removal of any such amount of loose ore is a physical impossibility.

Near the Danger Line.

In an account of a recent London tragedy a slip is made by a contemporary. It explains that "three doctors are in attendance, but the woman is not yet dead." Not long ago a daily nearly got into a jibed action by saying that a patient was "no longer in danger, though Dr. X. is still visiting him."—London Globe.

LIBRARY CONTEST GETTING EXCITING

Twentieth Century Club Makes
Big Gains on Leaders.

IT ROLLED UP 15,332 NEW VOTES

Kirby Smith Chapter Still in the Lead
by 243—Earnest Workers Running
Nicely—High School Dropped Be-
hind—The Masons Ran Well.

The third week of the Library con-
test shows but one change in the po-
sitions of the leaders in the race. The
Twentieth Century Club passed the
Earnest Workers, while Kirby Smith
Chapter still maintains the top of the
column, only being 243 votes ahead of
the Twentieth Century Club, which
made such big gains. Another such
week will make them the leaders.

The Odd Fellows' Home still retains
fourth place and the Masons got quite
a bunch the past week, while the Elks
and Knights of Pythias did not fare so
well. All voters who wish to have
their ballots count, should cast them
for the ones that have more than fifty,
as scattering votes will not be record-
ed in The Sun hereafter, but only kept
on the records in the office. There
were 11 votes cast for Hope-Well A.
M. E. Church and three for the Ep-
worth League. These are new names
since last week and will be of no avail.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows
Luxuriantly.

Fair preparations and dandruff cures,
as a rule, are sticky or irritating affairs
that do no earthly good. Hair, when not
diseased, grows naturally, luxuriantly.
Dandruff is the cause of nine-tenths of
all hair trouble, and dandruff is caused
by a germ. The only way to cure dan-
druff is to kill the germ; and so far, the
only hair preparation that will positively
destroy the germ is Newbro's Herpicide—
absolutely harmless, free from grease,
ointment, eye matter or dangerous drugs,
it kills itching instantly; makes hair
soft and soft as silk. "Destroy the
germ, and remove the effect." Sold by
all druggists. Send this to nearest for
sample. Newbro's Herpicide, Co., Boston.

ELIXIR for 10 or 12 years in my
family for the stomach, liver and kid-
neys, and find it is the best medicine I
have ever used. It is also a sure spe-
cific for pain in the back or under the
shoulders. I have recommended it in
numerous cases to my workmen, when
sick and unable to work, and it has al-
ways given perfect satisfaction. H. D.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The Tampa Fair will set aside a day to entertain the press of the State.

The new \$20 bills of the Treasury Department are expected to be very popular.

A Montana man has invented a vineless potato. This is a direct insult to the potato bug.

Bowen undertook to tell some bad stories about Loomis, but only told what is well known: that the latter used his office to line his pockets.

It is announced that sixty thousand laborers are wanted in South Carolina, and the tramps are going by way of other railways than the Carolina trunk lines.

Wabash, Ind., has a dog that eats ice cream with the girls, says an exchange. A dog would be preferable to some of the quadrupeds that have been seen with some girls.

If Premier Balfour could only lead the United States into some of their foreign troubles he would be happy. George Washington said: "Avoid all entangling alliances."

The Japs are waiting for the Russians to let up on killing each other, before renewing the fight. In the meantime they are raising a few of the Russian warships sunk around Port Arthur.

The Levy County Advocate comes to us this week as a five-column folio, and the change is a great improvement. The Advocate is quite newsworthy and deserves the patronage of the people of Williamson and vicinity.

The wholesale grocers of Jacksonville will have to look to their laurels a little, or New Orleans will be drawing a lot of their trade to the Crescent City. New lines of freight boats are being established, and along the West Coast of this State the retailers are buying from New Orleans the goods that should come from the wholesale houses of Florida.

The Mid-Winter Fair to be held at Tampa will be a grand enterprise. There is no doubt of that fact. With \$100,000 from the State to pay premiums, there should be sufficient to make an object for competitors from all over the State. But the fair managers should also bear in mind that it takes money to run a newspaper, and when they send out those long "readers" they should at least agree to put at least space rates, less the usual discount to advertising agents.

Mr. S. H. Wienges of Gainesville, clerk of the circuit court of Alachua, is making a tour of the East Coast of Florida in the interest of Gainesville as the proper place for the location of one of the State colleges, says he has secured signatures of every county official in both Volusia and Alachua counties excepting two; also the endorsements of a great many of the most prominent residents along the coast. Mr. Wienges is much pleased with the sentiment, which he says is almost unanimous in favor of Gainesville as the point at which one of the State colleges should be located. Florida Star.

IN ALL FAIRNESS.

In all of the work the people of Gainesville have done to induce the location of the State University in this city, there has been no false statements made nor any attempt to injure the character of any person or say aught against any city that may be in the race. Much, however, has been said by others which has not been repeated by the press of Gainesville—The Sun in particular, at least. It was not deemed necessary by The Sun to traduce our neighbors to build up our own town. The past record of Gainesville will show her standing on educational matters. In regard to the moral sentiment of our city, the records will show how she has advanced along this line.

There has been an effort made to maintain her standing throughout the State, and the work has shown what the people of Florida think of us. The following shows the sentiment of one of the best papers in the State, the expression of the editor and the message of two of our business men in acknowledgment:

"In The Star of two weeks ago today we published an editorial endorsement of Gainesville as the most suitable site for the new State University. Following the publication of that article we received a telegram from Mayor W. R. Thomas and Mr. W. G. Robinson, president of the Board of Trade of that city, worded as follows: 'We note with great satisfaction your kind words for Gainesville. In behalf of her citizens we thank you heartily.'—The Florida Star, Titusville.

The Sun desires to thank all others, on behalf of the people of Gainesville, for the many kind words. We assure all that our fair city will in the future prove herself worthy of every word, whether the University is located here or elsewhere.

DEEP PLOWING.

We can remember when there was a very general belief among farmers at the North that deep plowing injured the soil. This mistaken idea has gradually given way under the persistent pressure of those who have found by experiment and personal experience that deep plowing not only did not injure the soil but was a positive benefit.

The same mistaken idea still prevails largely throughout the South and especially in Florida. We call it a mistaken idea because there is abundant proof that crops improve under a system of deep plowing, gradually increasing the depth each year one or two inches at a time.

We do not advise anyone to go into a field and turn the good top soil down into the bottom of a deep furrow and turn up several inches of pure white sand or hard, stiff clay on top of it. But one or two inches may be added each time the land is plowed. The deeper the good upper soil is the faster it may be deepened. Where an effort is being made to deepen the soil the supply of humus should be increased as rapidly as possible by plowing under vegetable matter.

Still clay soils can be profitably deepened, but the process must be much slower than on a light sandy soil. It is much easier and cheaper, as a rule, to add to your farm by deepening the soil than by buying more land.—Florida Agriculturist.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHENEY & Co., Props., Toledo, Ohio.

FAVORS GAINESVILLE.

There is a regular strife as to where the State University for males shall be located. Lake City wants it bad, so does Gainesville. We are in favor of Gainesville.—Sarasota Times.

Mr. J. Hampton Jones of Orlando, in writing a letter to The Bradford County Telegraph, has the following: "The people through this section of the country stand very nearly as a unit in favor of Gainesville in the contest for the location of the State University."

The Board of Control appointed by the Governor are all men who have thus far kept out of politics. This is a good thing. The locations of the schools, appointment of teachers, etc., should have no politics in it. The business entrusted to these men is too important to be injured by any kind of political influence. We believe that if the selection of the site for the University should be left to the vote of the whole people Gainesville would be the lucky place, and in our opinion no mistake would be made in choosing that healthful, moral and prosperous city. It is admirably located for, and specially suited to an institution of this kind. However, if Lake City, or some other place, gets it, we hope that the welfare of the school will not suffer from envy or jealousy on the part of any other place. Let the contest be friendly and never lose sight of the fact the men who have the deciding power are men who will each of them vote according to the dictates of his best judgment. They are men competent to judge and they will without doubt do what appears to them best for all with all the lights before them.—Sumter County Times.

Talking Rock.

Australia has a postoffice named Talking Rock. The origin of the name is thus stated: Some one discovered in the vicinity a large stone upon which had been painted the words, "Turn me over." It required considerable strength to accomplish this, and when it was done the command, "Now turn me back and let me fool some one else," was found painted on the underside of the stone.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.
